EQUI-TREK

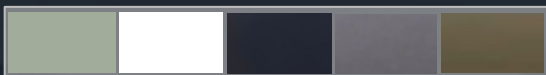

SUPERIOR CONSTRUCTION

- > Wood-Free, All-Composite Body: Lightweight and rot-resistant for long-lasting durability.
- > Super-Strong Aluminum Bulkhead: Reinforced protection between cab and horse area.
- > Fully Insulated All Year-Round Roof: Keeps temperatures regulated year-round with optional electric fans, vents, and skylights.

STYLISH AND PRACTICAL EXTERIOR

- > Metallic Paint Finish: Painted as standard for a sleek, modern look with a choice of 5 colors:

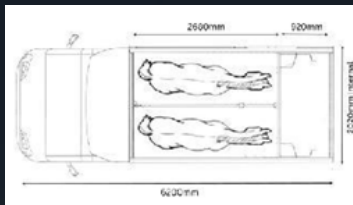

Plus, we can paint in a color of your choice for an additional cost.

- > Flush-Bonded Windows: In both horse and groom areas for a seamless finish.
- > Moulded Rear Step: Extra strength for secure entry and exit.
- > Mudflaps: Protect paintwork from road debris.

COMFORT AND CONVENIENCE INSIDE

- > Fully Padded Horse Area: Including partition, and top doors.
- > Edge-to-Edge Rubber Floor: Durable and easy to clean.
- > Stainless Steel Tie Rings: For reliable tethering.
- > Dual Wireless Camera System: Monitor the horse area and reverse with confidence.
- > LED Lighting: Switchable internal lights for work or calming mode.
- > Faux Leather Cab Seats: Stylish, supportive and easy to maintain.
- > Horse Area Temperature Monitor
- > Storage Net Over POD: Located in the over-cab Luton pod.
- > External Ramp Loading Light: For safe night-time loading.

INNOVATIVE FEATURES FOR SAFETY & EFFICIENCY

- Revolutionary "Easy Glide" Sliding Partition, easy use for one person
- > Full-Height, Padded & Reinforced: Built from composite and aluminum head bars.
- > Smooth One-Hand Operation: Unique flush-mounted rail system means no obstructions in the horse area.
- > Matching Flush-Fit Handles: On all doors and partitions for a clean, snag-free interior.

ENHANCED LOADING SYSTEM

- > Light-Lift Half Ramp: Safer, easier loading with minimal effort.
- > Lockable Slam Locks: On all doors and ramp for fast, secure closure.
- > All Doors Operable with One Hand: Designed for solo use and quick access.

SMART INTERIOR PRACTICIONING

- > Reinforced Mid-Wall & Sniffer Door: Fully removable and maintainable.
- > Simultaneous Top & Bottom Bolt Operation: No bending required, keeps you out of danger.
- > Locking Door Handles: Maintainable, adjustable and safe in both open and closed positions.

ROBUST DESIGN WHERE IT MATTERS

- > I Wheel Arches: Long-lasting with thick 7mm anti-step GRP covers.
- > I Rear Emergency Exit: 0.9m wide door offers a safe escape route if ramp access is blocked.
